hosted by **Eau de Web**

A few words from our gold sponsors...

"Plone is a part of us and we are a part of Plone."

We, the BlueDynamics Alliance, are proud to sponsor the 2015 Plone conference. We are a long-standing cooperation of six companies from Austria, Switzerland and Germany, with our hearts in the Plone community and our businesses built around Plone, Pyramid and Python-related technologies.

For more than 10 years, members of the BlueDynamics Alliance have substantially contributed to Plone's core and to add-on development. The majority of BlueDynamics Alliance members are also members of the Plone Foundation. We have arranged many sprints and organized two conferences. We support the community with our active involvement in different Plone teams: framework team, security team, UI team and marketing team.

All BlueDynamics Alliance members have years of extensive expertise in a wide spectrum of IT projects. We offer the full stack of Plone consulting: requirements analysis, project management, conceptualls and software architecture, UI/UX design, development, hosting, operation, maintenance and troubleshooting, security, deployment, high availability, performance tuning.

4teamwork

4teamwork is a Plone software company based in **Bern, Switzerland**, consisting of a young and motivated team of 23 skilled developers and consultants. Since 2001, we are designing, developing, and maintaining sophisticated web solutions in Plone for many governmental and non profit organizations, like **zg.ch** (canton of Zug, Switzerland), **bern.ch** (capital of Switzerland) or **amnesty.ch** (Amnesty International Switzerland). Furthermore, we help companies setting up their own intranet and/or extranet web service using Plone.

In the past few years, we have started to make our various developments publicly available. All these modules are actively maintained and continuously developed. Feel free to browse (and use) our numerous repositories on github.com/4teamwork. Any feedback (or pull requests ;) is welcome!

Trainings

Monday 12th - Tuesday 13th
